**Do you know that... ?**

... in prehistoric times beer was made from a plant called bog myrtle instead of hops?

... in the Iron Age people drank wine made from honey called mead? Wine from grapes was first made in Roman times.

... beetroot originally had no root? People ate the leaves, as is done today with the wild sea beet and its relative the Swiss chard.

... the potato comes from the part of South America which is now Peru and Chile? Potatoes did not arrive in the Netherlands until the 16th century and it is only in the last 200 years that the Dutch have eaten these roots which contain so much Vitamin C.

Do you know that... ?
... cheese was being made in Poland 7,000 years ago?
... bread has been eaten since the time of the hunebed builders?
... sorrel (dock leaves) taste great in a summer salad? They are also healthy and packed with vitamins.
... chicken originally came from Asia? Wild chickens known as Red Junglefowl can still be found in Asian jungles.

... the hunebed builders probably could not digest milk as a drink? They probably used it to make porridge, cheese, yoghurt and butter.

Every day you can discover something new in the Hunebed Centre!
